

# Camry

Breaking convention

**TOYOTA**

[toyota.com.au](http://toyota.com.au)

*Oh what a feeling!*

# There's a spirit that runs through Toyota. It's a feeling of achievement. It pushes us. Inspires us.

— It's what saw us mass produce the first dedicated hydrogen fuel cell vehicle, the Mirai, and what will see us define the very future of movement. Our Japanese founders called it 'Kaizen,' but we simply call it 'continuous improvement.' A relentlessness to always move forward, never settle for good enough.

And here's the exciting part, this feeling of achievement is yours to experience. Life changing moments, just waiting to be told. Whether it's the thrill of experiencing the latest in technology, venturing somewhere completely new or simply spending more time with your family. That sense of achievement, whatever form it comes in, will be a feeling you never forget.

This is a journey for which we don't know the destination, but looking back at how far we've come, it's safe to say tomorrow looks exciting beyond imagination.

“

*We are a group of passionate perfectionists who can't let well enough alone...*

*That's Toyota.*

*That's the spirit.*

*And that's our contribution to the world. We will be the best we can.*

*And we will help as many as we can to be the best they can...*

— Eiji Toyoda

Front cover and this page: Camry SL Hybrid model shown

## Welcome to the revolution

Fresh, bold and different. Camry, Australia's favourite mid-size sedan, has been rebuilt and re-engineered from the ground up. Beneath its elegant and athletic exterior lines,

you'll find Camry is underpinned by Toyota's New Global Architecture, delivering heightened levels of comfort and driving performance. This universal design excellence is matched with the intelligence of the latest technology and safety features.

Settle into the luxurious interior and you'll quickly discover why Camry is redefining standards and raising the expectation of

what modern comfort should be. Under the sculptured bonnet you can choose from the progressive Toyota Hybrid system on Ascent, Ascent Sport and SL grades, a 2.5L 4-cylinder petrol engine available on all grades, or step into the V6 power of the sporty SX and SL.

The revolution has begun, and Camry is ready to prove that everyday excellence can be truly exciting.

# The shape of brilliance

Camry Ascent model shown

Sleek and seductive, the eye-catching exterior of Camry seamlessly blends brilliance into beauty.

Centred upon Toyota's New Global Architecture, Camry is designed to not only heighten the senses, but also enhance the total driving experience.

As well as being aerodynamically efficient, the low, steeped bonnet line is designed to provide clear visibility for the driver. Broad shoulders

ground the vehicle, demonstrating a strength and stability that flows effortlessly into the tapered rear bumper.

More than elegant, the stylish lines of Camry's lightweight body hide a highly rigid frame that's paired with double wishbone rear suspension to deliver more responsive handling and precise steering. The advanced exterior design also improves the quality and comfort of the drive as well as enhancing fuel economy.

Sitting beneath the distinctive wheel flares, stylish 17" alloy wheels are fitted as standard, rising to 18" alloys on SL, and 19" on SX grades.

Plus the full glass panoramic roof on SL petrol variants (and optional on SX), and the electric tilt and slide moonroof on Hybrid SL, both open yet another dimension of luxury and driving pleasure.

# A smarter world of comfort

Settle into Camry and you'll quickly appreciate the functional beauty that defines its interior.

From the ergonomic driving position to greater passenger space and elegant interior finishes, you'll experience Camry comfort that's engineered to impress through openness, simplicity, visibility and sound.

The 7" Multi-Information Display (MID) on Ascent Sport, SX and SL provides real-time trip, road and vehicle data information. With intuitive fingertip control you can display fuel consumption, satellite navigation<sup>1</sup> directions, audio settings and vehicle monitoring data. The multimedia function can also be used to bring up song titles, caller ID or voice recognition.<sup>2</sup>

The 4.2" MID on Ascent displays a selection of essential trip, vehicle and audio detail, all with fingertip control. Get behind the wheel

of Camry SL and the Head Up Display (HUD) projects driving information onto the bottom of the windshield, including speed, music and directions, as well as important driver warnings. The information shown can then be adjusted using the MID control on the steering wheel.

Together they make Camry a smarter way to drive.

Camry Ascent Sport model shown

## Intelligent surroundings

Camry Ascent Sport model shown

Step aboard, and allow Camry to change your perception of comfort and style. Enjoy the convenience of entering and starting Camry while the key remains in your pocket or bag with the smart entry and start system on Ascent Sport, SX, SL and standard across the Hybrid range.

Be surrounded by superb sound in the Ascent, thanks to the 6-speaker audio system with 7" colour touchscreen display. It includes Bluetooth®<sup>3</sup> connectivity, voice recognition,

Mobile Assistant, Miracast, USB and AUX inputs.<sup>2</sup> This rises to an 8" display in Ascent Sport, SX and SL, and includes satellite navigation and SUNA™,<sup>4</sup> traffic channel updates.

You can also connect your smartphone<sup>2</sup> to all Camry audio units to open Toyota Link<sup>5</sup> where you can receive travel information, directions, real time weather and more, and on SX and SL, the wireless phone charger<sup>6</sup> removes the hassle of connecting charging cables.

On all grades, the single touch Electronic Park Brake adds an extra level of convenience, and in tight spaces the reversing camera<sup>7</sup> with moving guidelines helps provide a clear view of what's behind.

Whatever the weather is doing outside, the air conditioning will maintain perfect comfort within, with dual-zone automatic climate control for Ascent Sport, SX, SL and across all Hybrid models.

Paddle shift controls – SX and SL only

8" colour touchscreen display – Ascent Sport, SX and SL only

Dual-zone automatic climate control – Ascent Hybrid, Ascent Sport, SX and SL only

Smart start engine button – Ascent Hybrid, Ascent Sport, SX and SL only

60/40 split fold seats

# Ready to thrill

Camry SX model shown

The sporty Camry SX is ready and waiting for those who wish to elevate their driving experience.

From the purposefully flowing front end, to the powerful rear spoiler tipped tail, this is every part a machine designed and engineered to thrill.

Its suspension is tuned to provide sportier handling and is paired with 19" alloy wheels that feature V shaped spokes with accentuated edges and a bright machined surface, and are fitted with Dunlop SP Sport tyres.

The option of a powerful 3.5L V6 petrol engine promises even more scintillating performance and responsive power. Take hold of the sports steering wheel and you'll notice it's also home to crisp paddle shift controls for the 8-gear direct shift automatic transmission (8-speed available on V6 only).

The Camry SX is further enhanced with a high gloss sports grille, highlighting an athletic stance. The dynamic design cues continue inside with red or black leather accented sports seats that are shaped to provide extra support and comfort.

Camry SX. Ready to excite, when you are.

2.5L 4-cylinder Dual VVT-iE petrol engine with Toyota Hybrid Synergy Drive® (HSD)

2.5L 4-cylinder Dual VVT-i petrol engine

3.5L Dual VVT-iW V6 petrol engine

## Sophisticated strength

The Camry revolution puts the power into your hands.

With a choice of three different engines within the range, you're sure to find the right strength to match your sophistication.

The 2.5L 4-cylinder Hybrid engine is available

on Ascent, Ascent Sport and SL, and features reimagined hybrid power and efficiency. It seamlessly matches the response of a Dual VVT-iE (Variable Valve Timing – intelligent E) petrol engine and Toyota Hybrid Synergy Drive® (HSD) technology. Together they deliver outstanding performance with enhanced fuel economy.

Available on all grades, the 2.5L 4-cylinder petrol engine incorporates lightweight design to deliver high performance. The Dual VVT-i (Variable Valve Timing – intelligent) petrol

engine optimises the intake and exhaust timing to realise excellent response and lower emissions.

A more powerful 3.5L V6 petrol engine is available on SX and SL models. It features both Direct fuel Injection (DI) and Port Fuel Injection (PFI) and automatically selects the best one to suit the driving conditions and deliver the best response. The Dual VVT-iW (Variable Valve Timing – intelligent Wide) system ensures the engine produces high torque at all engine speeds.

# Enjoy a performance drive, without the compromise

The next generation Camry Hybrid engine, available on Ascent, Ascent Sport and SL provides the optimum balance between fuel economy, low emissions<sup>8</sup> and driving performance.

It delivers impressive, off-the-line torque and acceleration, enviable fuel efficiency at up to 1,190kms<sup>9</sup> on one tank, and a calmer, more responsive driving experience than ever before.

In addition to the enhanced dynamic performance provided by the lightweight

engine and lower centre of gravity, the all-new Variable Valve Timing intelgent system (VVT-iE) optimises output via an electric motor to deliver high fuel efficiency<sup>9</sup> and clean emissions.<sup>8</sup>

Toyota has led the way in Hybrid technology for over 20 years. As it proves to be one of the most satisfying and enjoyable drives on the road, it's easy to see why millions of drivers worldwide have made the switch. You can be confident that Camry Hybrid will take you further, for less.

Toyota Hybrid's latest technology gets you moving powerfully and smoothly every time. Enjoy an uncompromising drive with responsive, dynamic performance.

## STARTING OFF

The electric motor is used primarily and power stored in the battery is used to turn the motor.

## FULL ACCELERATION

Power is provided by the petrol engine in addition to the electric motor. Output is maximised for acceleration.

## BRAKING & DECELERATION

The electric motor functions as a generator to recharge the battery by itself. No fuel is used, so there are no CO<sub>2</sub> emissions.

## NORMAL DRIVING

A mix of petrol and electric is used for best economy, depending on the conditions. The battery is recharged where possible.

## AT REST

With the car brought to a stop, the petrol engine cuts off. The system automatically avoids idling to conserve fuel and reduce CO<sub>2</sub> emissions.

# Safety by design

Camry Ascent Sport model shown

Safety sits at the very heart of the Camry DNA, recognised by its maximum 5-star ANCAP safety rating (awarded in 2017). It starts with a body structure specifically designed to improve protection for everyone inside.

The driver and passengers are surrounded by the safety of 7 SRS airbags fitted as standard. On steep slopes or slippery surfaces, Hill-start Assist Control<sup>7</sup> (HAC) can help you to start moving forward safely, while Vehicle Stability Control (VSC) counteracts any over or under steer when cornering.

When parking or manoeuvring in tight places,

the front and rear clearance sensors<sup>7</sup> on Ascent Sport, SX and SL help guide you with an audio alert.

On the open road in Camry SL, Blind Spot Monitor<sup>7</sup> (BSM) uses radar to detect vehicles in blind spots and issue a warning through an indicator in the outer rear view mirror. When backing up, Rear Cross Traffic Alert<sup>7</sup> (RCTA) uses the same sensors to detect vehicles approaching from either side and issues an audio and visual alert for the driver.

The added benefits of Toyota Safety Sense<sup>7</sup> actively assist the driver to avoid accidents and reduce damage in the unlikely event of a collision.

## Toyota Safety Sense

At Toyota, we constantly strive to create a safer driving environment for everyone. That's why we developed Toyota Safety Sense (TSS),<sup>7</sup> a multi-feature active safety package designed to support safe driving and help protect you and your passengers. TSS incorporates Lane Departure Alert with steering assist, Pre-Collision Safety system with pedestrian detection, Automatic High Beam and Active Cruise Control. With automated pre-collision warning and braking at its core, TSS aims to recognise specific hazards and help avoid certain collisions, providing greater reassurance to the driver and extra protection for passengers across a varying range of driving speeds and conditions.

### Pre-Collision Safety system with pedestrian detection<sup>7</sup>

Pre-Collision Safety system with pedestrian detection is developed to help reduce the likelihood of a frontal collision with cars and pedestrians. It includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision is judged to be unavoidable, automatic braking to help mitigate the impact.

### Active Cruise Control<sup>7</sup> (ACC)

ACC is designed to help keep a constant distance between vehicles. It uses a milliwave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance. All-speed Active Cruise Control available across all grades.

### Lane Departure Alert with steering assist<sup>7</sup>

Lane Departure Alert with steering assist is designed to help prevent vehicles drifting from their lane, by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane. It may also apply additional steering force if needed, to help you stay in your lane.

### Automatic High Beam<sup>7</sup>

Using a camera to sense either approaching headlights or the tail lights ahead, Automatic High Beam is designed to help you maintain safe and considerate driving by switching between high and low beam as needed.

# Camry Ascent

- 2.5L Dual VVT-i 4-cylinder petrol engine
- 6-speed automatic transmission (petrol only)
- 17" alloy wheels
- Bi-LED auto-levelling headlamps, LED tail lamps and Daytime Running Lamps (DRLs)
- Electronic Park Brake
- Driver's seat power adjustable lumbar support
- 4.2" Multi Information Display (MID)
- Steering wheel controls for MID, telephone and audio

- 7" colour touchscreen display with Bluetooth®<sup>3</sup> and Toyota Link
- Audio system with 6 speakers, AUX and USB input for iPod®<sup>3</sup>/portable audio players
- Reversing camera with moving guidelines
- 7 SRS airbags
- Toyota Safety Sense<sup>7</sup> including Pre-Collision Safety system with pedestrian detection, Lane Departure Alert, Automatic High Beam and Active Cruise Control

## **Exclusive to Hybrid:**

- 2.5L VVT-iE petrol engine with Toyota Hybrid System
- Continuously Variable Transmission
- Dual-zone automatic climate control
- Smart entry and start system

# Keep your Camry in its prime

Equip your Camry with Toyota Genuine Accessories,<sup>11</sup> designed to perfectly complement its flowing lines and make it even more enjoyable to drive. Choose from a range of sporty accessories, including mudguards and a tinted bonnet protector, or add practical additions such as durable scuff plates and headlamp covers, to protect your Camry and keep it looking as stylish as ever.

To find out more, visit [toyota.com.au/camry](https://toyota.com.au/camry)

Camry Ascent in Glacier White shown accessorised with Toyota Genuine weathershields (left hand and right hand sold separately), mudguards, rear bumper protection plate, rear parking sensors and tow bar, tow ball and trailer wiring harness.<sup>12</sup> All accessories sold separately.

Camry SL Hybrid in Lunar Blue shown accessorised with Toyota Genuine headlamp covers, tinted bonnet protector, slimline weathershields (set of 4) and mudguards. All accessories sold separately.

- A. Rear parking sensors
- B. Rear bumper protection plate
- C. Tow bar, tow ball and trailer wiring harness<sup>12</sup>  
(Sold separately)
- D. Scuff guard
- E. Bootliner (Full size spare wheel version shown)
- F. Drive recorder
- G. All weather floor mats
- H. Scuff plates

## The Toyota Advantage

Every Toyota gives you a lifetime of advantages. That's what makes it a Toyota. You'll enjoy legendary Toyota value from the moment you drive away, and you'll continue to appreciate the quality, safety and innovation that's engineered into each model, every day you drive.

Discover the full range of products and services and find your nearest Dealer at [toyota.com.au](http://toyota.com.au)

### Discover the freedom of Toyota Access<sup>13</sup>

Toyota Access puts you in complete control when buying a new car, with lower monthly repayments.<sup>14</sup> Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with flexibility and assurance. To discover Toyota Access for yourself visit [toyota.com.au/toyota-access](http://toyota.com.au/toyota-access)

### Capped price servicing<sup>15</sup>

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to five years or 75,000km, whichever occurs first (including Genuine parts, labour and fluids). For the full benefits consult a Toyota Dealer or visit [toyota.com.au/advantage](http://toyota.com.au/advantage)

### Toyota Warranty Advantage

Every new Toyota is built to exceptional standards, and from 1 January 2019, Toyota vehicles are backed by a five year/unlimited kilometre warranty.<sup>16</sup> If your vehicle is properly serviced and maintained per its Warranty and Service Book, we'll extend your engine and driveline warranty for an additional 2 years,<sup>17</sup> giving you peace of mind for years to come. In the event of a claim covered by warranty, you are covered by a 60 day money back guarantee and 7 years emergency assistance including expenses related to car hire, towing or even accommodation if required. For more information visit [toyota.com.au/owners/warranty](http://toyota.com.au/owners/warranty)

### Your battery goes further<sup>18</sup>

The Hybrid battery used by Toyota, requires no maintenance, charges automatically while you drive and never needs to be plugged into a power supply. From 1 January 2019, Toyota Hybrid batteries are backed by a five year/unlimited kilometre warranty. Complete an annual hybrid battery health check according to Toyota specifications during routine maintenance, and we'll extend your Hybrid battery warranty to 10 years.

### Finance to get you going

If you need a little help, Toyota Finance<sup>19</sup> can offer you a wide range of vehicle financing options. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.

### Insurance options

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first three years, use of Toyota Genuine Parts, and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.<sup>20</sup> For more information visit [toyota.com.au/insurance](http://toyota.com.au/insurance)

### Extend your peace of mind

Whether it's a flat tyre, lost keys or a flat battery, Toyota Roadside Assist<sup>21</sup> is never more than a phone call away. Available 24 hours a day, seven days a week, our technicians are there to help you get back on the road. For more information visit [toyota.com.au/insurance/roadside-assistance](http://toyota.com.au/insurance/roadside-assistance)
